19th IWA World Conference
on Anaerobic Digestion

Thursday 11

Tapas Poster Session

Thursday 11

València Conference Centre 

Tapas Poster Session — Second semifinal round

P204	The Implications Of Management Practices On Life Cycle Greenhouse Gas Emissions In Biogas Production	<i>Lehtoranta, Suvi (Finland)</i>
P205	Anaerobic Digestion Of Bioplastics In Food Waste	<i>Demirel, Burak (Türkiye)</i>
P206	Intelligent Sludge Dewatering: Real-Time Adaptive Control Delivering Measurable Operational And Environmental Gains	<i>Gehani, Dinesh (Germany)</i>
P207	Effect Of Thermophilic Anaerobic Digestion On The Microbiological Quality Of Treated Urban Sludge	<i>López, Andrea (Spain)</i>
P208	Operation Of A Pilot-Scale Hyperthermophilic Hydrolysis Reactor Pretreating Wheat Straw For Enhanced Biogas Production	<i>Gilroyed, Brandon (Canada)</i>
P209	Methanization Of <i>Opuntia Ficus-indica</i> At 20°C, 35°C, And 55°C	<i>Gonzalez-Martinez, Simon (Mexico)</i>
P210	A Mini Review Of Anaerobic Co-digestion For Enhancing Hydrogen Production	<i>Shabanizadeh, Hessam (Germany)</i>
P211	PCA And Cluster Analysis Of Thermal Hydrolysis: Effects On Industrial And Municipal Biosludge Anaerobic Digestion	<i>Goycoechea Freire, Nicolas (Uruguay)</i>
P212	Effect Of Modified Biochar In Acidogenic Co-fermentation Of Protein-rich Waste: BioH ₂ , VFA And Microbial Community	<i>Hernández Vélez, Leslie (Spain - Chile)</i>
P213	Effect Of Magnetite On The Anaerobic Degradation Of Purified Terephthalic Acid (PTA) Wastewater In EGSB Reactors	<i>Kurnianto, Rifki Wahyu (Netherlands)</i>
P214	Effect Of Winery Wastewater Pretreatment By Anodic Oxidation On Biohydrogen Production Via Dark Fermentation	<i>Hernández Vélez, Leslie (Spain - Chile)</i>
P215	In-situ Biogas Upgrading As A Strategy For Improving FW Digestion	<i>Ribeiro, Mateo (Uruguay)</i>
P216	Hybrid Bio-electrochemical Biogas Upgrading Into Renewable Natural Gas Via Formic Acid	<i>Ye, Shaoyu (Canada)</i>
P217	Impacts Of Organic Loading On Acidification And Methane Production In Anaerobic Co-Digestion Of Coffee Wastes	<i>Garay Jácome, María Paula (Colombia)</i>
P218	Recovery And Reuse Of Magnesium And Phosphorus From Struvite For Efficient Ammonium Removal In Wastewater	<i>Park, Nari (Republic of Korea)</i>
P219	Suppressing Methane Emissions From Sewage Sludge Digestate	<i>Hassan, Muna Ibrahim (United Kingdom)</i>

P220	Methane And Energy Recovery Enhancement By Ultrasonic Pre-treatment Of Landfill Leachate Co-digested With WAS	<i>Isik, Onur (Türkiye)</i>
P221	Integrating DF-BES For Mezcal Vinasses Treatment And Energy Production Using CQDs From Organic Waste	<i>Estrada-Arriaga, Edson Baltazar (Mexico)</i>
P222	Transformation Of WWTPs Into Ecofactories: Production Of Phosphate Salts With Agronomic Value	<i>Castro-Barros, Celia M. (Spain)</i>
P223	Minimizing Internal Resistance In AD-MEC Systems Using Graphite Felt Electrodes	<i>Timmers, Rudolphus Antonius (Spain)</i>
P224	Disintegration For Methane Production Causes BPA Leaching From Polycarbonate Microplastics	<i>Ayca, Ipek (Türkiye)</i>
P225	Quantifying Methanogenic Pathway Contributions In Syngas Biomethanation Using $\delta^{13}\text{C}$ and $\delta^2\text{H}$ Stable Isotope Methods	<i>Bonato, Irene (Italy)</i>
P226	Techno-Economic Assessment Of An Anaerobic Membrane Bioreactor For Dairy Wastewater Treatment	<i>Ozgun, Hale (Türkiye)</i>
P227	Effects Of Transient PH Dynamic Shocks On Anaerobic COD Degradation Under Sewer-like Conditions	<i>Kim, Dong-Hoon (Republic of Korea)</i>
P228	Sulfur Source Effect On The Biological Activity Of Microbial Consortia Fed With H_2/CO_2	<i>Laguillaumie, Léa (France)</i>
P229	Demonstration Of A Two-step Digestate Processing Strategy For Enhanced Nutrient Availability	<i>Hagenimana, Eric (United Kingdom)</i>
P230	Challenging Heating Requirements In Anaerobic Digestion: Room-temperature Performance In Batch And Continuous Reactors	<i>Bhatia, Pranshu (Japan)</i>
P231	Beyond Arrhenius: Moderate Thermophilic Temperatures Maximise Hydrolysis In Food Waste Anaerobic Digestion	<i>Nader, Elie (France)</i>
P232	Synergistic Role Of Low-Strength Ultrasound And Co-Digestion In Anaerobic Digestion Of Swine Wastewater	<i>Jo, Hongmok (Republic of Korea)</i>
P233	Effects Of Inoculum Source And Microbial Community Enrichment On Hydrogenotrophic Methanogenesis Under Different $\text{H}_2\text{-CO}_2$	<i>Bozzelli, Antonio (Italy)</i>
P234	$\beta\text{-FeOOH}$ Nanorod Catalysts As Non-precious Alternatives For Hydrogen Evolution In Microbial Electrolysis Cells	<i>LEE, Dokyung (Republic of Korea)</i>
P235	Improving Municipal Organic Waste Treatment Through Thermal Hydrolysis To Enhance Anaerobic Digestion Performance	<i>Colin, Juliette (Spain)</i>
P236	Influence Of Gas-liquid Mass Transfer On The Modelling Of In Situ Biomethanation At Laboratory And Pilot Scales	<i>Segura, Tatiana (France)</i>
P237	Energy And Environmental Assessment Of Pretreatments For CBG Production From Rice Straw: A Study In The Indian Context	<i>Kulkarni, Amey (India)</i>

P238	Increased Organic Loading Of Marine Aquaculture Sludge In Continuous Biogas Reactors	<i>Solli, Linn (Norway)</i>
P239	Biogas Desulfurization Through Sulfide-oxidizing Bacteria Grown On Cow Manure Digestate As A Circular Nutrient Source	<i>Zhu, Yali (Belgium)</i>
P240	Mixed Culture Fermentation Of Brown Juice For Carboxylates Production	<i>Zagorna, Amelia (Poland)</i>
P241	Magnetite Modulates Sulfate-Stressed Microbial Networks toward SRB-Methanogen Cooperation	<i>Vayena, Georgia (Denmark)</i>
P242	Energy And Nutrients Recovery In A Pilot-scale Biogas Plant Treating Agro-aquaculture Waste In The Colombian Orinoquía	<i>Cadavid-Rodríguez, Luz Stella (Colombia)</i>
P243	Advanced Anaerobic Co-digestion Of Swine Manure Enhanced by Conductive Materials And Electrochemical Stimulation	<i>Yun, Yeo-Myeong (Republic of Korea)</i>
P244	Taxonomy-based Assessment Of Industrial Anaerobic Sludges For Biohydrogen Production	<i>Hidalgo, Dolores (Spain)</i>
P245	Wasted Sludge Valorization Via Simultaneous PHA And EPS Recovery	<i>Mannina, Giorgio (Italy)</i>
P246	Evaluation Of Graphene Oxide And Reduced Graphene Oxide Impacts On Anaerobic Propionate Degradation Kinetics	<i>Wan, Jingjing (Australia)</i>
P247	Bioprocess Strategies To Enhance Microbial Medium-Chain Fatty Acids Production From Carbohydrates-Rich Food Waste	<i>Gallipoli, Agata (Italy)</i>
P248	Wastewater Treatment And Energy Recovery Via Microbial Fuel Cells: An Emerging Technology	<i>Vijay, Ankisha (India)</i>
P249	Integration Of Electrodialysis And Long-term Acid Fermentation From Olive Mill Solid Waste	<i>Serrano, Antonio (Spain)</i>
P250	Why Upscaling Matters: Comparative Anaerobic Digestion Of Soybean Molasses And Crude Glycerol From Lab To Pilot-scale	<i>Clara Gomes Rodrigues, Brenda (Brazil)</i>
P251	Valorizing Hydrothermal Carbonization Liquid Streams For Biomethane Recovery	<i>Hidalgo, Dolores (Spain)</i>
P252	Biogas Production And Co-digestion Performance Of Biomass Harvested From Membrane Photobioreactors	<i>Ferrera León, Elvira (Spain)</i>
P253	Thermophilic Biomethanation With Straw: Effect Of Sparger Size In Gas Recirculation	<i>Laaksonen, Ilmari (Finland)</i>
P254	How Ammonia Stress Reshapes Methanogenic Pathways: Insights Into Pathway-specific Inhibition And Recovery	<i>Wang, Zhongzhong (Spain)</i>
P255	Transforming Aquaculture Waste Into Volatile Fatty Acids: Designing A Continuous Anaerobic Fermentation Process	<i>Otterheim, Linnéa (Sweden)</i>

P256	Thermophilic Fungi Hydrolytic Enzymes To Enhance Bioconversion From Brewers' Spent Grains	<i>Cubero Cardoso, Juan (Spain)</i>
P257	Start-Up And Performance Of A Demonstration-Scale Thermophilic Sewage Sludge Anaerobic Reactor: Engineering & Microbiolo	<i>Astals, Sergi (Spain)</i>
P258	PFAS-Like Compounds In Digestates From Danish Bio-gas Plants: Occurrence And Analytical Characterization	<i>Moutinho, Mariana (Denmark)</i>
P259	The OBIWAN Project For Transformation Of Biogas Into Advanced Chemicals And Sustainable Aviation Fuel: Dynamic Modeling	<i>Ribeiro, Thierry (France)</i>
P260	Study Of The Impact Of Biofilm Formation On The Ex-situ Biological Methanation Process	<i>Richard, Charlotte (France)</i>
P261	Mono-Digestion Of Straw Using Novel Anaerobic Digestion Technologies	<i>Moller, Henrik (Denmark)</i>
P262	SYMSITES: Urban-industrial Symbiosis For Waste And Wastewater Management In The Alcoy Area	<i>Tamarit Coronado, Raquel (Spain)</i>
P263	Start-up Stability And Microbial Dynamics In A Full-Scale Dry Plug-Flow Digester Treating Kitchen Waste	<i>Li, mingyang (China)</i>
P264	Estimating ADM1 Prediction Uncertainty Via Inter-laboratory Studies And Experimental Data	<i>Delory, Félix (Germany)</i>
P265	Ethanol Production From Agroindustrial Waste: Steering Open-mixed Cultures	<i>Martorell-Múgica, Alejandra (Spain)</i>
P266	Assessment Of Anaerobic Digesters' Performances In Finland With A Non-radial Data Envelopment Analysis Model	<i>Varalta, Federico (Finland)</i>
P267	Optimizing Acetogenic CO ₂ Conversion Via Strategic Selection Of Support Materials Using Multilevel Categorical Design	<i>Kougias, Panagiotis (Greece)</i>
P268	GPS-X Simulation-Based Optimization Of Anaerobic Digester Operation For Seasonal Food Waste Leachate	<i>Yoo, Gamin (Republic of Korea)</i>
P269	Experimental Evaluation And Advanced Control Strategy For Pig Manure And Crude Glycerol Co-Digestion Optimization	<i>Khanal, Samir (Hong Kong, China)</i>
P270	Effect Of Sodium Hypochlorite On Methane Production And Microbial Community In Anaerobic Digestion	<i>Ni, Jialing (Japan)</i>
P271	Machine Learning-Driven Optimization Of Pressurized Biomethanation Via Targeted Trace Metal Supplementation	<i>Kontogiannopoulos, Konstantinos (Greece)</i>
P272	Dark Fermentation Of Fruit Waste: Effects Of Supplementation Strategies On H ₂ Production And Organic Matter Removal	<i>Janas, Ana (Brazil)</i>
P273	A Multi-Stage Biological Treatment System For Sustainable Waste Management And Resource Regeneration On Lunar Bases	<i>Biasiolo, Marco (Italy)</i>

P274	Machine Learning-based Assessment Of Reactive Species Effects In Cold Plasma Pretreatment For Anaerobic Digestion	<i>Kim, Boyoung (Republic of Korea)</i>
P275	Optimization Of Biochar-Digestate Mixtures For Chemical Profile Amelioration Across Three Soil Types	<i>Nikolaidou, Charitini (Greece)</i>
P276	From Bottles To Steady-state Anaerobic Digestion Reactors: A Corrected Mass Balance Model For CSTR	<i>Baquerizo-Crespo, Ricardo (Spain)</i>
P277	Impact Of Lignocellulose-derived Inhibitors On Continuous Dark-fermentative Hydrogen Production	<i>Zagrodnik, Roman (Poland)</i>
P278	Biomimetic Chewing Pretreatment Of Miscanthus For Enhanced Biogas Production: From Batch To Continuous Operation	<i>Wang, Yanqui (China)</i>
P279	Environmental Stress As A Driver Of Pigment Modulation In Rhodobacter Capsulatus	<i>Llama Saus, Javier (Spain)</i>
P280	Algal Biomass As A Natural Alkalinity Source In The Anaerobic Digestion Of Raw Sugarcane Vinasse	<i>Siqueira, Juliano (Brazil)</i>
P281	Antibiotic Removal During Anaerobic Digestion Of Cattle Manure: Does Organic Loading Rate Have An Effect?	<i>Rial, Antón (Spain)</i>
P282	Cavitation Based Pretreatment For The Enhancement Of Biohydrogen Production From OFMSW	<i>Logan, Mohanakrishnan (India)</i>
P283	Coupling Wet Air Oxidation And PPB Bioelectrochemical Processes for Sustainable Refinery Sludge Treatment	<i>Galve Santacruz, Victor (Spain)</i>
P284	Anaerobic Digestion Gases Capture And Bioconversion Into High Value-added Bioproducts	<i>Colvée Bosch, Carolina (Spain)</i>
P285	Psychrophilic Digestate As A Substitute For Urea In Dairy Pastures	<i>Casallas, Miguel & Cabeza, Iván (Colombia)</i>
P286	Mixed VFA Fermentation Dynamics Through Simplified ADMI	<i>González-Barceló, Óscar (Mexico)</i>
P287	Rhodopseudomonas as a promising driver for biogas upgrading and production of food-grade value-added compounds	<i>García López, María José (Spain)</i>
P288	Anaerobic-Aerobic Treatment Of Polymer Production Wastewater: Enhanced COD Removal And Energy Recovery	<i>Shang, Ran (Netherlands)</i>
P289	Comparing Anaerobic Technologies For The Treatment Of Hydrothermal Liquefaction Aqueous Byproduct In WRRFs	<i>Wehner, William (United States)</i>
P290	Anaerobic Fungal Bioaugmentation Alters Structural, Biochemical, And Microbial Dynamics In Straw Anaerobic Digestion	<i>Meenakshisundaram, Shruthi (France)</i>
P291	Impact Of Temperature On Solid-State Anaerobic Digestion Of Cow Manure And Co-Digestion With Rice Straw	<i>Abbas, Muzammil (Japan)</i>

P292	Starch-Rich Versus Fibre-Rich Diets And Fat Supplementation: Impacts On Methane Yields Of Dairy Cow Manure	<i>Romio, Cristiane (Denmark)</i>
P293	A Rumen-inspired Hydrolytic AnDMBR Coupled With A Methanogenic AnDMBR Enables Stable Food Waste And Sludge Co-digestion	<i>Karki, Renisha (United States)</i>
P294	Volatile Fatty Acid Production Under Ambient Temperature: The Role Of Granular Activated Carbon And Torrefaction	<i>Sari, Tugba (Sweden)</i>
P295	Continuous Acidogenic Fermentation Coupled With Vivianite Formation	<i>Kweon, Do-Young (Republic of Korea)</i>
P296	Thermal-alkali Pretreatment Of Poplar Wood For Enhanced Production Of Biogas	<i>Azizi, Armineh (Canada)</i>
P297	Stratification And Time Series Analysis Of Trickle Bed Bioreactors For Biogas Upgrading	<i>Papasakellariou, Konstantinos (Denmark)</i>
P298	Stratified Bed Of Fluidized Reactors Exhibits Predominance Of Autotrophic Methanogenesis Assisted By Dark Photosynthesis	<i>Dornelles, Henrique (Brazil)</i>
P299	Gravimetric Vs Volumetric Calibration: Liquid-Displacement Gas Meter Uncertainty Assessment For High-Throughput BMP Test	<i>Li, Mingyang (China)</i>
P300	Process-driven Control Of Carboxylate Production From Acid Whey	<i>Brodowski, Filip (Poland)</i>
P301	Environmental Assessment Of Biogas Production Systems Across Five Farm Archetypes In Hauts-de-France	<i>Mballa Omgba, Bruno (France)</i>
P302	Enhancing Methane Production From Pig Slurry Using Biochar: Effects Of Dosage And Temperature	<i>Cerrillo, Míriam (Spain)</i>
P303	Techno-economic Assessment Of The Bioenergy Potential Of Post-harvest Cocoa And Coffee Biomass Waste In Rural Areas	<i>Cubero Cardoso, Juan (Spain)</i>
P304	Comparison Of Host Systems For Production Of Recombinant Carbohydrate Active Enzymes Sourced From Anaerobic Fungi	<i>Sciascia, Gabriel (Switzerland)</i>
P305	Low Cost Tubular Digesters In Europe: First Results	<i>Martí-Herrero, Jaime (Ecuador)</i>
P306	Residual Methane Potential Of AD Plants Assessing Climate-relevant Emissions	<i>Ruesch, Florian (Switzerland)</i>
P307	Coupling Electrochemical CO ₂ Reduction To Formate With Purple Phototrophic Bacteria For Single Cell Protein Production	<i>Pezzuto, Marco (Italy)</i>
P308	Valorization Of Food Waste Beyond Co-Digestion	<i>Ramalingam, Krish (United States)</i>
P309	Dose-response Effects Of Microaeration On Thermophilic Lignocellulose-based Anaerobic Digestion	<i>Kozera, Marcin (Denmark)</i>

P310	Unravelling The Function Of Uncultured Chloroflexota In Methanogenic Reactors Through Metatranscriptomics	<i>Bovio-Winkler, Patricia (Uruguay)</i>
P311	Temperature-Dependent Ammonia Stress And Loading Limits In Dry AD Of Swine Manure	<i>Tumbahangphe, Manita (Canada)</i>
P312	Evaluation Of Anaerobic Digestate From Swine Washwater As A Biofertilizer In Forage Systems Under Field Conditions	<i>Ariza Parra, Henry (Colombia)</i>
P313	Hyperspectral Imaging And Machine Learning To Improve Process Control Of Anaerobic Digestion Of Food Waste	<i>Martin-Ryals, Ana (United States)</i>
P314	Assessment Of The Biogas Production Potential From A Dairy Farm Located In The Tropical Region Of Costa Rica	<i>Sanchez Romero, Carlos (Costa Rica)</i>
P315	Performance And Feasibility Of Micro Biogas Systems Under Swiss Climate Conditions	<i>Rüsch, Florian (Switzerland)</i>
P316	Enhancing Anaerobic Digestion Of HTL Aqueous Phase: A Comparative Assessment Of Adsorption Pretreatment And Co-digestion	<i>Amini, Ghazaleh (Canada)</i>
P317	Biorefinery Approach For Olive Pomace Conversion Into Bioproducts And Bioenergy: Technical And Sustainability Assessment	<i>Ferrer, Ivet (Spain)</i>
P318	Carbon Footprint Assessment Of Biomethane Production From A Centralized Biogas Plant	<i>Bonmati, August (Spain)</i>
P319	Modelling The Specific Methane Production Of An Anaerobic Digester With The First Derivative Of The Gompertz Equation	<i>Esparza-Soto, Mario (Mexico)</i>
P320	Towards Intensified Volatile Fatty Acids Production And Recovery In Acidogenic Fermentation Of Deproteinated Cheese Whey	<i>Turolla, Andrea (Italy)</i>
P321	Optimizing The Selective Odd-chain Carboxylate Production From Cheese Whey In A Two-step Fermentation System	<i>Carballa, Marta (Spain)</i>
P322	Energy And Resource Recovery From Municipal Wastewater By A Pilot-scale Sidestream Anaerobic Membrane Bioreactor	<i>Liu, Ziwei (China)</i>
P323	Process Optimization Of Sewage Sludge Hydrothermal Carbonization For Integrated Energy And Resource Recovery	<i>Díaz Pineda, Javier (Spain)</i>
P324	Bioaugmentation Strategies For Improved Methane Yields During The Anaerobic Digestion Of Coffee Processing Waste	<i>Tsigkou, Konstantina (Denmark)</i>
P325	Potential Of Biohythane From Municipal Solid Waste For Sustainable And Low-Carbon Transportation In Colombia	<i>Valencia-Ortiz, Jhon G (Colombia)</i>
P326	Effect Of Marine Salinity Stresses On Sewage Sludge Anaerobic Digestion Performance	<i>Silvestre, Gracia (Spain)</i>

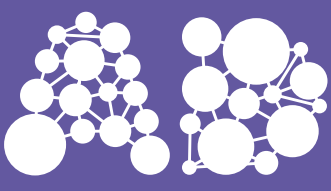

P327	Fungal Community Promotion Via Microaeration For Maximizing Volatile Fatty Acids Production From Olive Mill Solid Waste	<i>Guirado Mendoza, Luna (Spain)</i>
P328	Operational Strategies For The Safe Transition From Mesophilic To Thermophilic Sludge Anaerobic Digestion In Wastewater	<i>Córdoba, Alejandra (Spain)</i>
P329	Microbial And Functional Impacts Of Distinct Ammonia Sources In Anaerobic Digestion	<i>Medina Santana, Claudia (Ireland)</i>
P330	Enhancing Energy Recovery In Wastewater Treatment Through Co-digestion: A Case Study From The B-WaterSmart Project	<i>Casals del Busto, Ignacio (Spain)</i>
P331	Assessment Of Circularity Potential Of Biogas Produced From Fish Sludge To Fish Feed	<i>D. Moura, Clara (Portugal)</i>
P332	Integrated Zeolite-based Metal Recovery To Boost Biogas Production: A Sustainable Approach To PTA Wastewater Treatment	<i>Duarte, M.Salomé (Portugal)</i>
P333	Pilot-scale Production Of Microbial Protein From Biogas Using Methanotrophic Cultures	<i>Carvajal-Arroyo, Jose (Netherlands)</i>
P334	Model-derived Insights Into Three Full-scale Anaerobic Digestion Systems For Co-digesting Sewage Sludge With FW And FOG	<i>Puente, Pedro (United States)</i>
P335	Behaviour Of PFAS In Anaerobic Treatment Systems: PFOA Adsorption And Impacts On Methane Production	<i>Pereira, Luciana (Portugal)</i>
P336	Nanotechnology For The Sustainable Production Of Biomethane From Palm Oil Industry Effluents In Tropical Countries	<i>Agudelo-Morales, Carlos E (Colombia)</i>
P337	Simultaneous Partial Nitrification-mixotrophic Denitrification Using Chilean Zeolite As Microbial Support	<i>Guerrero, Lorna (Chile)</i>
P338	Sustainable Sewage Sludge Management Strategies For Polyhydroxybutyrate-co-Polyhydroxyvalerate Production	<i>Otero, Ana (Spain)</i>
P339	Tailoring Olive-mill Wastewater Biostimulants To Boost <i>Arthrospira Platensis</i> Metabolism During Biogas Upgrading	<i>Vargas-Estrada, Laura (Spain)</i>
P340	Improving Methane Production/Process Resilience In Anaerobic Digestion Via A Magnetite-doped Powdered Activated Carbon	<i>Nakano, Reo (Japan)</i>
P341	From Laboratory To Field: Scalable Bioremediation Strategies For Acid Rock Drainage In The Global South	<i>Ochoa-Herrera, Valeria (Ecuador)</i>
P342	Comparative Hydrogen Production In Microbial Electrolysis Cells Treating Brewery Effluents: Effect Of Cathode Material	<i>Cardeña, René (Uruguay)</i>
P343	Dynamic Forecasting Of Inhibitory And Hydrodynamic Phenomena In The AD Process With Transformer-based Architectures	<i>Meola, Alberto (Germany)</i>

P344	Temperature And SRT As Key Drivers Of Pharmaceutical Removal During Anaerobic Sludge Digestion	<i>Crouchett Catalán, Francois (Spain)</i>
P345	Operational Limits And Temperature Transition Strategies For High-loaded Anaerobic Digestion: Insights From Pilot-scale	<i>Olsson, Jesper (Sweden)</i>
P346	Renewable Gas Production At Wastewater Treatment Plants Via Electrochemical-biological CO ₂ -reduction	<i>Gehring, Tito (Germany)</i>
P347	Assessing Dark Fermentation As A Platform Technology For Biorefineries And Carbon Recycling	<i>Manu, James (United Kingdom)</i>
P348	Effect Of Thermal Pretreatment On The Anaerobic Digestion And Copper Distribution In Alperujo-olive Leaves Mixtures	<i>Ramos-Muñoz, Víctor M. (Spain)</i>
P349	Enrichment Of PHA-Storing Mixed Cultures Using MAAD Food-Waste Leachate In An Automated Reactor	<i>Carvajal, Andrea (Chile)</i>
P350	Methane Production From Beeswax Waste: Experimental Evaluation And Kinetic Analysis	<i>Barahona, Andrea (Chile)</i>
P351	Sulfate-reducing Consortia Drive Integrated Acid Rock Drainage (ARD) Treatment	<i>Zambrano-Romero, Aracely (Ecuador)</i>
P352	Anaerobic Digestion Of Real Cattle Slurry As A Circular Economy Approach For Mitigation Of GHG Emissions	<i>Costa, Luís (Portugal)</i>
P353	Anaerobic Decolorization Of Reactive Black 5 Enhanced By Iron-based Additives: Performance And Microbial Response	<i>Milen Firmino, Paulo Igor (Brazil)</i>
P354	Carbonaceous Redox Mediators Enhance Anaerobic Removal Of Reactive Black 5	<i>da Silva, Marcos Erick Rodrigues (Brazil)</i>
P355	Long-term Anaerobic Digestion Of Livestock Waste And Digestate Valorization By Producing Microalgal Biomass	<i>Gonzalez Camejo, Josué (Spain)</i>
P356	Syngas-to-Acetate Platform: Enhancing Acetate Production By Acetobacterium Woodii Enriched Culture	<i>Lebrero, Raquel (Spain)</i>
P357	Saline-Resilient Anaerobic Granules: Inoculum-Independent Formation And Cobalt Biorecovery Potential In UASB Reactors	<i>Gagliano, Maria Cristina (Netherlands)</i>
P358	Enhancement Of Methane Production: Comparative Evaluation Of Carbon-based Additives In The Anaerobic Digestion Of Swine	<i>Burboa Charis, Vianey (Mexico)</i>
P359	Two-stage Approach To Use Waste From The Sugar-Alcohol Industry As Co-substrates For Hydrogen And Methane Production	<i>Rabelo, Camila (Brazil)</i>
P360	Process Design And Model-based Assessment Of Biological Methanation Integration In Wastewater Treatment Plants	<i>Rossi, Simone (Italy)</i>
P361	Spatial Assessment Of The Bioenergy Production And Nutrient Recycling Potential Of Brazilian Bovine Slaughterhouse Waste	<i>Lazarotto Formagini, Edinéia (Brazil)</i>

P362	Comparison Of Current On-ship Wastewater Treatment Technologies: Is There A Niche For Anaerobic Systems?	<i>Gonzalez-Gil, Lorena (Spain)</i>
P363	Multi-objective Optimization Of Thermal Pretreatment Process For Resource Recovery And Contaminant Abatement	<i>Adetule, Oluyemi (Ireland)</i>
P364	Influence Of Metformin On Anaerobic Digestion Activity	<i>González Blanco, Gehovana (Mexico)</i>
P365	Integrated Anaerobic Digestion And Photo-Fermentation For Tequila Vinasse Valorization And Biogas Upgrading	<i>León Becerril, Elizabeth (Mexico)</i>
P366	Optimizing Dark Fermentation Of Olive Mill Wastewater Via Inoculum Pretreatments	<i>Fino, Debora (Italy)</i>
P367	Fate Of Pharmaceutical Micropollutants During Mains-tream Anaerobic Treatment Of Domestic Sewage	<i>Holohan, Conall (Netherlands)</i>
P368	Influence Of Temperature, Inoculum Source, And Organic Loading On Biohydrogen Production From Soybean Molasses In Batch	<i>Comparato, Carolina (Brazil)</i>
P369	Starch-Rich Diets And Fats, Nitrate And 3-Nitrooxypropanol Additives: Impacts On Methane Yields Of Dairy Cow Manure	<i>Romio, Cristiane (Denmark)</i>
P370	Treatment Of Delactosed Cheese Whey Permeate Using AnMBR: Performance, Methane Production, And Membrane Fouling Behavior	<i>Perendeci, Nuriye (Türkiye)</i>
P371	Determination Of The Optimum SRT For Carbon Capture And System Performance Of HR-MBR Treating Municipal Wastewater	<i>Atilgan, Merve (Türkiye)</i>
P372	Modular Prototype For The Biological Treatment Of Acid Rock Drainages (ARD)	<i>Zambrano-Romero, Aracely (Ecuador)</i>
P373	Conductive Materials-amended Anaerobic Digestion Of Dairy Farm Waste For Improved Antibiotics Degradation	<i>Pelagalli, Vincenzo (Ireland)</i>
P374	Production Of Struvite By Microbial Isolates In Sugarcane Biorefinery Effluents	<i>Soares, Bruna (Brazil)</i>
P375	Use Of Magnetite-amended Digestate As A Fertiliser: Impact On VOC Emissions And Soil Microbial N Cycling	<i>Vincent, Julien (Ireland)</i>
P376	Application Of Nanoparticles In Anaerobic Digestion: A Review Based On The PRISMA Methodology	<i>Soares, Bruna (Brazil)</i>
P377	Impact Of Silver Nanoparticles On The Anaerobic Digestion Of Sewage Sludge And Organic Solid Waste	<i>González Blanco, Gehovana (Mexico)</i>
P378	Enhanced Organic Micropollutant Removal In UASB Reactors Amended With Biochar And Magnetic Biochar	<i>Firmino, Paulo Igor (Brazil)</i>
P379	Effect Of Organic Loading Rate On Antibiotic Resistance Genes Fate During Anaerobic Digestion Of Cow Manure	<i>Espada Núñez, Pablo (Spain)</i>
P380	Energy Potential, Nutrients And Microorganisms In Olive Mill Solid Waste	<i>Martín Medrano, Cinta (Spain)</i>

P381	Under The Spotlight: Dead Volume Diagnosis In Full-scale Anaerobic Digesters By Means Of CFD Modelling	<i>Arnau Notari, Rosario (Spain)</i>
P382	Effect Of Physico-chemical Pre-treatments On The Anaerobic Biodegradability Of Soybean Okara For Biomethane Production	<i>Quispe Arpasi, Diana Elizabeth (Peru)</i>
P383	Biodegradation Of Allura Red And Aromatic Amines: Effect Of Micro-aeration And Co-substrate	<i>Meza, Edna (Mexico)</i>
P384	Relationship Between The Electron-transfer Capacity Of Carbon-based Materials And Biohydrogen Productivity	<i>Burboa, Vianey (Mexico)</i>
P385	Biological Stability Of Digestates From Anaerobic Digestion: Implications For Agricultural Reuse	<i>Cerrillo, Miriam (Spain)</i>
P386	Impact Of Multistep Separation On Biogas Potential From Re-digested Biogas Digestate	<i>Ghorbani, Marzieh (Denmark)</i>
P387	Design, Development, And Operation Of A Novel EGSB Reactor System Utilising Native Microbiota For VFA Production From Cheese Whey Permeate	<i>Utomo, Michael Hananta (Ireland)</i>
P388	Synergistic Anaerobic Co-Digestion Of Swine Manure And Nixtamalization Wastewater	<i>Serrano, Denisse (Mexico)</i>
P389	Anaerobic Co-digestion Of Fish Waste And Wet Coffee Processing Wastewater For Biomethane Production	<i>Quispe Arpasi, Diana Elizabeth (Peru)</i>
P390	Maximizing Methane Production In Swine Wastewater Through Alumina And Iron Oxide Additives	<i>Armenta, Miguel (Mexico)</i>
P391	Effect Of Grinding On The Anaerobic Digestion Of Green Waste	<i>Bassin, Joao (Brazil)</i>
P392	Co-Digestion Synergies Between Food Waste And Green Waste: Methane Yield And Biodegradability Evaluation	<i>Bassin, Joao (Brazil)</i>
P393	Pilot Scale Codigestion Of Gracilaria Sp. And Cattle Manure In A 20 M ³ Fixed Dome Digester: Biogas Performance And Kinetic Modelling	<i>Essadek, Abdessadek (Morocco)</i>
P394	Circular Biomethane Production In Rural Areas From Agri-food Waste: LIFE CHANDELIER Project	<i>Fernández Blanco, Ana (Spain)</i>
P395	Integrating Aquatic Biomass Into Anaerobic Digestion: A Sustainable Bioenergy Approach Using Duckweed	<i>Akan, Aytac Perihan (Türkiye)</i>
P396	Influence Of Hydraulic Retention Times On Hydrogen Production Via Acidogenic Fermentation	<i>Fernandez-Morales, Francisco Jesus (Spain)</i>
P397	Advanced Anaerobic Reactor For High Hydrolysis And Conversion Efficiency In Sewage Sludge Treatment	<i>Deng, Zhe (Belgium)</i>
P398	Techno-economic And Environmental Impacts Of Methanogenic Inhibition In Waste-to-energy Anaerobic Digestion Systems	<i>Rivas-García, Pasiano (Mexico)</i>

P399	Anaerobic Co-Digestion As A Pathway To Energy Neutrality In Small-Scale Wastewater Treatment Plants And Underloaded Facilities	<i>López, Neus (Spain)</i>
P400	RE-FEED: Renewable Energy Production At Farm Level For Energy Efficiency And Defossilization	<i>Fragoso, Rita (Portugal)</i>
P401	Stabilization Period Of A Fermentative Reactor Using An Intermittent Feeding Control Strategy	<i>Vargas Casillas, Alejandro (Mexico)</i>
P402	Effect Of Humidity And Biogas Composition On The CO ₂ Permeability And CO ₂ /CH ₄ Selectivity Of Supported Liquid Membranes For Biogas Upgrading	<i>Marco Velasco, Gorka (Spain)</i>
P403	Comparative Fouling Study Of NIPS-driven And Electrospun PVDF Flat-sheet Membrane Contactors For Dissolved-CH ₄ Recovery From An Anaerobic Digestate	<i>Gálvez, Alejandro (Spain)</i>
P404	Retrofitting Old WWTPs With Anaerobic Digestion. A Case Study On Economic Viability	<i>Gomes-Rodrigues, Sergio (Spain)</i>
P405	Recovering Nutrients and Unblocking the Cake Layer of an Electrochemical Anaerobic Membrane Bioreactor	<i>Zhang, Yuhan (China)</i>
P406	Enhanced Ectoine Production From Methane In A Taylor Flow Bioreactor	<i>Herrero Lobo, Raquel (Spain)</i>
P407	Pathogen Regrowth Risks Associated With Sludge Pretreatment In Mesophilic Anaerobic Digestion	<i>Duan, Haoran (Hong Kong, China)</i>
P408	Mitigation Of Terpene-Induced Inhibition In Anaerobic Digestion Of Citrus Waste Via Clostridium Dark Fermentation	<i>Park, Jeong-Hoon (Republic of Korea)</i>
